TECHNOLOGICAL DESIGN TDJ

WHAT IT'S ABOUT

"Tech Design" courses are where you apply design processes to meet a variety of challenges while creating hands-on projects and products.

WHAT YOU'LL LEARN

How to create designs, build models and/or prototypes, research and assess products using tools, hands-on techniques and strategies from the industry.

WHAT YOU'LL DO

Create floor designs for homes and vehicles, build bridges and robotic arms, 3D print and work with other modern technological products.

Be prepared for success, take **TECH.**
