Milling vs. 3D Printing

- Advantages versus to choosing a milling machine
 - Low initial and running costs.
 - Wide material selection.
 - Fast, functional prototype parts.
 - Superior precision.
 - Better surface finish with little to no secondary hand finishing.
 - Standard processes and tooling.

Milling vs. 3D Printing

Advantages/reasons to choosing a milling machine

- ✓ Low initial and running costs.
- ✓ Endless material selection.
- ✓ True, functional prototype parts.
- ✓ Superior precision.
- ✓ Better surface finish with little to no secondary hand finishing.
- ✓ Uses standard processes and tooling.
