

**THEY SAID,
"YOUR BROTHER'S DEAD".
THAT'S ALL I REMEMBER.**

My name is Trista Hughes. My brother Dylan was crushed to death by a forklift.

**THINK THIS COULDN'T HAPPEN TO YOU?
THINK AGAIN.**

You're more likely to be injured in your first month on the job than at any other time. These injuries can be prevented. A safe workplace is every worker's right. It's your employer's responsibility to train you properly from day one. And it's your responsibility to take it seriously. Ask questions. And remember, you can always say no to work you don't think is safe.
