

### **Kitchen Equipment & Safety Tips**

Students will be placed into groups. The task is to rotate to each sheet of paper around the kitchen. You must name two pieces of equipment that fit the category and a safety precaution (tip) while using the equipment.

Groups must work together and work at a quick pace. No answer should be written twice.

#### Equipment that can burn you

- **Stove-** Remember to never leave anything on the stove that is not being used because it heats up very quickly.

For Example:

#### Equipment that can cause strains

#### Equipment that can cut you

#### Equipment that can burn you
