

Three-Point Lighting

Learning Goals:

1. I will be able to name and safely use the most common lighting instruments used in TV and Movie production.
2. I will work in a team to create a Three-Point lighting set up and other lighting effects.

Success Criteria:

At the end of this Lighting workshop I will be able to do these things:

	By myself	with help	incomplete
1. Identify a Fresnel, Scoop, Lenseless and Leko			
2. Set up a light on a stand and turn it on			
3. Create a Three Point Lighting set up			
4. Name the 3 main lights in this set up			
5. Use gels to change the colour of light			
6. Create a Fireside lighting set up			
7. Create a Moonlight reflecting off water set up			
8. Create a Silhouette set up			
9. Recognize a Gobo lighting effect			
10. Safely put lights away
