<b>Passport to Safety</b> <a href="http://www.passporttosafety.com/">http://www.passporttosafety.com/</a>  <b>Passport to Safety</b> is a unique, not-for-profit, cross-Canada catalyst for change intended to help eliminate needless injuries and preventable deaths of Canadians.  Passport to Safety supports the vision that young Canadians have the power to influence the evolution of safe workplace cultures.	People challenge a Passport to Safety "test", based on learning outcomes developed by health and safety curriculum experts from most provincial and territorial jurisdictions across Canada.  Successful participants are awarded a "transcript" that can be attached to resumés to demonstrate their basic awareness of health and safety. This basic level of awareness becomes a foundation on which to build all the other essentials required to be safer and healthier workers.  Participants are then encouraged to add more credits for other courses that help people manage risk, such as first-aid, babysitting, water-safety, snowmobile safety and literally hundreds of others. This supports and adds value to their efforts to find a job.  Passport to Safety is also designed to encourage and generate discussion about health and safety education and increase participation in training	All Technological Education courses at all grade levels <ul style="list-style-type: none"> <li>• Cost is FREE for Ontario Teachers and their students (cost is absorbed by WSIB)</li> <li>• Teen Challenge: Online multiple choice test based on a series of articles that focus on WHMIS and other safety curriculum expectations</li> <li>• Health &amp; Safety 101: comprehensive test that uses images more than text in the questioning; excellent alternative for students who struggle with language/text</li> <li>• Students can access from any online computer at any time; progress is saved, so brief drop-in work sessions can still record progress</li> <li>• Teacher has access to log</li> </ul>	

	across Canada.	<p>illustrating progress level of each student, as well as data on last time logged in</p> <ul style="list-style-type: none"> <li>Upon completion, students have a certificate printed with their identification information included (can be added to resume package)</li> </ul>
