

Partnering with OCTE

Technological Education equips students to succeed in the modern workforce:

- It encourages critical thinking, problem-solving, and creativity, developing the skills that are essential for success in any field.
- It teaches them how to design, create, and innovate, preparing them to become future leaders and entrepreneurs.
- It is open and accessible to all, welcoming students from all backgrounds and abilities.
- It provides opportunities for students to explore their interests and passions, cultivating the practical skills that will serve them well in their future careers.

Support OCTE

We welcome individuals and organizations that wish to advance technological education. **You can support the work of OCTE by:**

- Sponsoring OCTE Conferences or Professional Development Opportunities
- Delivering Professional Development Training for teachers
- Providing tours for students and / or teachers
- Partnering with School Boards to deliver Sector Partnered Experiences related to Math, Coding or Innovation, Creativity & Entrepreneurship
- Providing co-operative education work placements for students
- Partnering with OCTE to bring current and innovative technologies into our schools
- Assisting with teacher training of new technologies
- Offering to be a Guest Speaker at your local elementary and high schools
- Participating in round table discussions

SUPPORTING TECHNOLOGY EDUCATION

OCTE is committed to supporting teachers as they provide high-quality education to students. By empowering and championing teachers, we ensure all students have access to the skills and knowledge they need to succeed in the careers of the future.

We serve Elementary and Secondary School Teachers across Ontario by:

- ✔ Developing and Sharing Classroom Resources
- ✔ Creating Professional Development Opportunities
- ✔ Advocating For Technology Education
- ✔ Providing Branding and Marketing Materials

The Ontario Council for Technology Education is a provincial organization dedicated to advancing Technological Education

OCTE develops resources for Elementary Science and Technology teachers and Secondary Technological Education teachers in each of the **Broad-Based sectors**:

- Communications
- Computer Technology
- Construction
- Green Industries
- Hairstyling & Aesthetics
- Health Care
- Hospitality & Tourism
- Manufacturing
- Tech Design
- Transportation

OCTE also provides resources, promotional material and professional development for SHSM, OYAP, Experiential Learning and STEM related programming.

Membership in OCTE

OCTE is a member-based organization open to all educators. Talk with your board lead to see if your board is an existing affiliate of OCTE, or consider becoming a member yourself.
